Corval Group Begins Work at Thunder Butte Petroleum Services

Makoti, ND – Corval Group has begun work at Thunder Butte Petroleum Services Refinery in Makoti, North Dakota. The refinery, which is a collaboration between Three Affiliated Indian tribes, will be constructed on a 476-acre site and will be completed in phases over the next two years.

Corval Group has been hired to engineer, procure, and manage Phase 1 for this Crude Oil Transload facility. Once completed, the refinery will employ 100 people and refine 20,000 b/d of Bakken crude into diesel and other petroleum products.

“We are excited to be a part of this project and feel we can bring value.....” said Kurt Swenson, Executive Vice President of Corval’s Northwest Region.

The refinery is the second one to be built in North Dakota and one of the first refineries to be built in the United States in many years. The other refinery in North Dakota was built by Tesoro Corporation and was also managed and constructed by Corval Group.

About Corval Group, Inc.

St. Paul, MN based Corval Group is a full service industrial general contractor and engineering firm offering solutions and services that delivers results. As a schedule driven industrial general contractor, they develop specialized plans for each project to insure on-time and on-budget delivery.
